Input Code:

```dart
                   child: Stack(
                     children: <Widget>[
                       Container(
                         height: 100.0,
                         width: 100.0,
                         color: Colors.yellow,
                       ), Container
                       Container(
                         height: 60.0,
                         width: 60.0,
                         color: Colors.amber,
                       ), Container
                       Container(
                         height: 40.0,
                         width: 40.0,
                         color: Colors.brown,
                       ), Container
                     ], <Widget>[]
                   ), Stack
                 ), CircleAvatar
               ], <Widget>[]
             ), Row
           ), Center
         ), Scaffold
       ); MaterialApp
     }
}
```

Output:

CircleAvatar Stack Example
